Independent Auditor's Report

To the Board of Directors Byron Bethany Irrigation District Byron, California

Report on the Financial Statements

We have audited the accompanying financial statements of Byron Bethany Irrigation District, as of and for the year ended December 31, 2019, as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Byron Bethany Irrigation District as of December 31, 2019, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America, as well as the accounting systems prescribed by the State Controller's Office and State Regulations governing Special Districts.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, and other required supplementary information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Management has omitted the Management's Discussion and Analysis. Our opinion on the basic financial statements is not affected by this missing information. We have applied certain limited procedures to the other required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

1. Organization:

Byron Bethany Irrigation District (the "District") is a multi-county special district serving parts of Alameda, Contra Costa and San Joaquin Counties across 47 square miles and 30,000 acres. The District was formed in 1919.

2. Summary of Significant Accounting Policies:

Method of Accounting

The basic financial statements of Byron Bethany Irrigation District have been prepared in conformity with generally accepted accounting principles as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Basis of Accounting

District accounting is accounted for using the accrual basis of accounting. Revenues are recognized when they are earned, and expenses when incurred.

Property Taxes

The District receives property taxes from Alameda, Contra Costa and San Joaquin Counties. Property tax revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period.

2. Summary of Significant Accounting Policies, continued:

Depreciation

Utility plant and equipment are recorded on the basis of purchase cost. Assets acquired by contributions are recorded at estimated cost or fair market value at the date of acquisition.

Depreciation is calculated by the straight-line method over the estimated useful lives of the respective assets as follows:

General properties	5 – 100 years
Pumping plant	5 – 50 years
Equipment	5 – 40 years
Autos	5 – 10 years
PL 984 project	30 – 100 years
CVPSA distribution system	5 – 50 years

Investments

Investments consist of LAIF (State of California pooled investment fund) and various bank savings accounts. Investments are stated at fair value. Such investments are within the State statutes and the District's investment policy.

Budget and Budgetary Accounting

The Board of Directors annually adopts an operating budget. The operating budget is prepared on the accrual basis to match the operating statements.

2. Summary of Significant Accounting Policies, continued:

Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid debt instruments purchased with an initial maturity of three months or less to be cash equivalents, including restricted assets. Cash in banks, deposits in the State of California Local Agency Investment Fund (LAIF) and deposits with fiscal agents are considered to be cash and cash equivalents.

Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as a current liability. Sick pay is not vested.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

<u>Pensions</u>

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. Summary of Significant Accounting Policies, continued:

Other Postemployment Benefits ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the net position of the District's OPEB plan and additions to/deductions from the OPEB plan's net position have been determined on the same basis as they are reported by the plan. For this purpose, the OPEB plan recognizes benefit payments when due and payable in accordance with the benefit terms.

Gains and losses related to changes in total OPEB liability and net position are recognized in OPEB expense systematically over time. The amortized amounts are recognized in OPEB expense for the year gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until that future time.

Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

2. Summary of Significant Accounting Policies, continued:

Net Position

Net position is classified in the following categories:

Net Investment in capital assets – groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce this category.

<u>Restricted</u> – presents external restrictions imposed by creditors, grantors, contributors or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

<u>Unrestricted</u> – represents the net position of the District, which are not restricted or invested in capital assets net of related debt.

3. Cash and Cash Equivalents:

At year-end the carrying amount of the District's deposits was \$9,900,911 and the bank balance was \$10,075,397. The bank balance was covered by Federal depository insurance and was covered by collateral held in the pledging bank's trust department as mandated by state law.

	Balance, December 31, 2019
Checking accounts Petty cash	\$ 9,900,729 182
	\$ <u>9,900,911</u>

3. Cash and Cash Equivalents, continued:

<u>Investments</u>:

California statutes authorize the District to invest in a variety of credit instruments as provided for in the California Government Code Section 53600, Chapter 4 – Financial Affairs. The Government Code allows investments in obligations of the U.S. Treasury, agencies, and instrumentalities, commercial paper rated A-1 by Standard & Poor's or P-1 by Moody's Commercial Paper Record, bankers' acceptances, repurchase agreements, medium-term corporate notes, mutual funds and the State Treasurer's Local Agency Investment Fund (LAIF). The investments at December 31, 2019 consist of:

	Carrying <u>Amount</u>	Maturity - 12 Months or Less
LAIF	\$ <u>6,763,318</u>	\$ <u>6,763,318</u>

Pursuant to Government Accounting Standards Board Statement 3, the investment in LAIF is not classified in categories of credit risk. The District's funds in LAIF are invested in a diversified portfolio (of underlying investment e.g. U.S. Treasury obligations) such that it considers the risk of material loss to be minimal. The funds held in LAIF can be withdrawn on demand.

Cash		\$ 9,900,911
LAIF		6,763,318
		\$ <u>16,664,229</u>
Operations		\$ 213,894

Work in progress	\$834,242	\$ <u>2,609,696</u>	\$	\$ <u>3,443,938</u>

5. Long-term Debt:

Long-term debt activities for year ended December 31, 2019 are as follows:

	Balance <u>1/1/19</u>	Debt <u>Retired</u>	Balance 12/31/19	Current Portion
Revenue Bonds	\$ 5,000,000	\$ 245,000	\$ 4,755,000	\$ 275,000
Bureau: Construction costs	2,765,923	356,353	2,409,570	-
Intertie	135,797	2,378	133,419	-
Series 2017 Revenue Refunding Bonds	2,163,000	219,000	1,944,000	225,000
	\$ <u>10,064,720</u>	\$ <u>822,731</u>	\$ <u>9,241,989</u>	\$ <u>500,000</u>

Revenue Bonds

On October 30, 2018 the District (through the entity known as the "Byron Bethany Joint Powers Authority") issued \$5,000,000 in Series 2018 Enterprise Revenue Bonds. The Bonds were issued to provide permanent long-term financing for the acquisition and construction of certain new pump station and water line improvements. The Bonds bear interest at the rate of 3.260% and principal on the bonds is due each October 1.

Bureau of Reclamation

The total liability of \$2,901,720 (District's share of constructing Central Valley Project plus share of construction of Delta-Mendota Canal/California Aqueduct Intertie). Payments are to be made through future deliveries (50 years) of water. No interest is being charged on this liability.

5. Long-term Debt, continued:

Refunding Bonds:

On February 9, 2017 the District issued \$2,606,000 in series 2017 Revenue Refunding Bonds. The bonds were issued to provide financing for the refunding and defeasance of Prior Obligations. The bonds bear interest at 2.35% and principal is due each October 1 through 2027.

The bonds are secured by and payable solely from revenues of the District. The Term Bonds are subject to redemption prior to maturity as specified in the bond resolution.

These loans mature as follows:

Payment Date	<u>Principal</u>	Interest	Total
4/1/20	\$ -	\$ 100,349	\$ 100,349
10/1/20	500,000	100,348	600,348
4/1/21	-	93,222	93,222
10/1/21	510,000	93,222	603,222
4/1/22	-	85,956	85,956

4/1/24	-	70,769	70,769
10/1/24	553,000	70,769	623,769
2025-2029	2,482,000	466,722	2,948,722
2030-2033	1,590,000	131,542	1,721,542
Post 2033	2,542,989		2,542,989
	\$ <u>9,241,989</u>	\$ <u>1,455,790</u>	\$ <u>10,697,779</u>

6. Defined Benefit Retirement Plan:

Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), a cost sharing multiple-employer defined benefit pension plan. The District participates in the miscellaneous 2% at 60 pool. CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public employers within the State of California. CalPERS require agencies with less than 100 active members in the plan to participate in the risk pool. All District full-time employees are eligible to participate in the System. Benefits vest after five years of service. District employees who retire at age 50 to 63 and with over 5 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1.426 to 2.418 percent of their average salary during their last 36 months of employment. A menu of benefits provision as well as other requirements is established by State Statutes within the Public Employees Retirement Law. The plan selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through District resolution. CalPERS issues a separate comprehensive annual financial report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS executive Office, 400 P Street, Sacramento, California, 95814.

6. Defined Benefit Retirement Plan, continued:

Funding Policy

The Plan's provisions in effect at December 31, 2019 are summarized as follows:

Benefit formula	2.0% at 60
Benefit vesting schedule	5 years of service
Benefit payments	monthly for life
Retirement age	60
Required employee contribution rates	6.915% / 6.750%
Required employer contribution rates	8.081% / 6.985%

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended December 31, 2019, the contributions recognized as part of pension expense were as follows:

Miscellaneous

Contributions – employer

\$ 114,956

6. Defined Benefit Retirement Plan, continued:

A. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions:

As of December 31, 2019, the District reported net pension liability as follows:

Net pension liability

\$_597,819

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2019, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

At December 31, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Changes in assumption Differences between expected and	\$ 29,718	\$ -	
actual experiences	61,861	-	
Net differences between projected and actual earnings on pension plan investment	-	16,880	
Difference between actual and proportionate share	-	92,205	
Changes in proportion	67,849	-	
Pension contributions subsequent to measurement date	56,329		
	\$ <u>215,757</u>	\$ <u>109,085</u>	

6. <u>Defined Benefit Retirement Plan, continued:</u>

\$56,329 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended December 31	
2020	\$ 40,656
2021	(7,285)
2022	13,562
2023	3,411
2024	-
Thereafter	-

Actuarial Assumptions – The total pension liabilities in the June 30, 2019 actuarial valuations were determined using the following actuarial assumptions:

	<u>Miscellaneous</u>
Valuation date	June 30, 2018
Measurement date	June 30, 2019
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount rate	7.15%
Inflation	2.75%
Payroll Growth	3.0%
Projected Salary Increase	3.3%-14.2%
Investment Rate of Return	7.5%

6. Defined Benefit Retirement Plan, continued:

Discount Rate – The discount rate used to measure the total pension liability was 7.15% for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

6. Defined Benefit Retirement Plan, continued:

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1-10(a)	Real Return Years 11+(b)
Global Equity	47.0%	5.25%	5.71%
Global Fixed Income	19.0%	0.99%	2.43%
Inflation Sensitive	6.0%	0.45%	3.36%
Private Equity	12.0%	6.83%	6.95%
Real Estate	11.0%	4.50%	5.13%
Infrastructure and Forestland	3.0%	4.50%	5.09%
Liquidity Total		-0.55%	-1.05%

⁽a) An expected inflation of 2.5% used for this period.

⁽b) An expected inflation of 3.0% used for this period.

6. Defined Benefit Retirement Plan, continued:

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	<u>Miscellaneous</u>
1% Decrease	6.15%
Net Pension Liability	\$958,934
Current Discount Rate	7.15%
Net Pension Liability	\$597,819
1% Increase	8.15%
Net Pension Liability	\$299,745

Pension Plan Fiduciary Net Position — Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

7. Net Position:

Components of net position as of December 31, 2019 are analyzed as follows:

Net investment in capital assets		\$26,155,213
Restricted:		
2017 series debt payment 2018 revenue bonds debt payment	\$1,600,000 1,00 <u>0,000</u>	2,600,000
Unrestricted: Board designated:	1,000,000	_,,,,,,,,
Capital improvement project plan Insurance/SIR Rolling stock repl't.	1,476,086 105,000 100,000	
Construction eq. repl't. Groundwater mgt. RWSA infrastructure repl.	100,000 200,000 2,000,000	
SLDMWA-DHCCP reserve CVP Service Area Cap. Imp. PERS contribution	1,000,000 50,000 500,000	
OME & GA reserve Legal reserve	3,406,250 <u>1,000,000</u> 9,937,336	
Undesignated	<u>(175,761</u>)	9,761,575
		\$ <u>38,516,788</u>

8. Risk of Loss:

Byron Bethany Irrigation District is exposed to various risks of loss related to theft of, damage to, and destruction of assets; and injuries to employees. During the 2019 fiscal year, the District purchased certain commercial insurance coverages to provide for these risks.

9. Other Post Employment Benefits (OPEB):

Plan Description

OPEB provided: The District provides medical coverage to qualified retirees, subject to certain conditions.

Access to Coverage and Benefits: Healthcare benefits are currently provided through ACWA Joint Powers Insurance Authority. A full-time District employee may become eligible for those benefits after meeting one of the following conditions:

- 1. A regular employee hired by the District prior to January 1, 1992 covered by an approved District health plan retires from the District at or after age 55 with no less than fifteen (15) years of continuous District service.
- 2. A regular employee hired by the District on or after January 1, 1992 covered by an approved District health plan retires from the District at or after age 60 with no less that twenty (20) years of continuous District service.
- 3. If a retiree reaches age 65 and becomes eligible for Medicare or otherwise becomes entitled to governmentally provided or mandated health benefits, the District may replace its then existing approved healthcare plan with supplemental health insurance of a type and amount to be determined by the District.
- 4. No insurance will be provided to a Director whose term in office that begins on or after January 1, 1995 unless the retiree participates on a self-pay basis.

The District pays 100% of medical premiums for the covered retiree only. The District does not contribute toward medical premiums for spouses and/or dependents. There is no fixed cap on the District's contribution toward retiree medical coverage. The District allows retirees to retain medical coverage until their death. Coverage ends for the spouse and/or other dependents at the retiree's death. No survivor coverage is available other than as required by COBRA.

Retirement from the District is a condition of eligibility; the District must be the last employer prior to retirement. An employee who retires from the District but does not meet the age and service requirements for the District-paid health benefits cannot continue the coverage (beyond COBRA) by paying the full premium. The District does not waive the standard age or service requirement for eligibility for retiree medical benefits if an employee were to qualify for a disability retirement.

9. Other Post Employment Benefits (OPEB), continued:

The District does not provide any medical subsidies to an otherwise qualified retiree who does not elect medical coverage through the District. In addition, no time lapse is permitted in enrolling in the District health benefits after retirement. If an otherwise eligible retiree does not take the District coverage at the time of retirement, future retiree medical coverage and benefits are forfeited.

A qualified pre-Medicare spouse may enroll in the District health benefits if the full premiums are paid by the retiree.

The contribution requirements of Plan members and the District are established and may be amended by the Board of Directors.

Net OPEB Liability

The District's net OPEB liability was measured as of December 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2019.

Actuarial Assumptions

The total OPEB liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Discount rate	7.05%
Inflation	2.00%
Payroll Increase	N/A
Healthcare Trend	7.50%

Discount Rate

The discount rate used to measure the total OPEB liability was 7.05%. The discount rate is based on the expected long-term rate of return on the invested assets.

9. Other Post Employment Benefits (OPEB), continued:

Change in Net OPEB Liability as of December 31, 2019

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Rollback balance at December 31, 2019 Changes recognized for the measurement period:	\$ <u>1,153,279</u>	\$ <u>1,130,689</u>	\$ <u>22,590</u>
Service cost	25,324	-	25,324
Interest on total OPEB liability	80,795	-	80,795
Employer contributions	-	95,860	(95,860)
Net investment income	-	247,052	(247,052)
Benefit payments	(65,153)	(65,153)	-
Administrative and other expenses	-	(631)	631
Investment experience		<u> </u>	
Net changes during January 1 to December 31, 2019	40,966	277,128	<u>(236,162</u>)
Balance at December 31, 2019 (Measurement Date)	\$ <u>1,194,245</u>	\$ <u>1,407,817</u>	\$ <u>(213,572</u>)

Sensitivity of the Net OPEB liability to changes in the discount rate

The following presents the net OPEB liability with a discount rate 1% higher and 1% lower than assumed in the valuation:

	Discount Rate 1% Lower 6.05%	Valuation Discount Rate 7.05%	Discount Rate 1% Higher 8.05%
Net OPEB liability	\$ <u>(51,814</u>)	\$ <u>(_213,572</u>)	\$ <u>(346,465</u>)

9. Other Post Employment Benefits (OPEB), continued:

Sensitivity of the Total OPEB liability to changes in healthcare cost trend rates

The following presents the total OPEB liability with a healthcare cost trend rate 1% higher and 1% lower than assumed in the valuation:

	1% Decrease <u>6.50%</u>	Current Trend	1% Increase <u>8.50%</u>
Total OPEB liability	\$ <u>(371,629</u>)	\$ <u>(_213,572</u>)	\$ <u>1,253</u>

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended December 31, 2019 the District recognized OPEB income of \$910. The values of deferred outflows and inflows of resources related to OPEB as of December 31, 2019 are:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	•	\$	-
Changes of assumptions		-		-
Net difference between projected and actual earnings on OPEB plan investments		_		113,913
District contributions subsequent to the				
measurement date				-
	\$	<u>-</u>	\$	113,913

9. Other Post Employment Benefits (OPEB), continued:

Amounts reported as deferred outflows and inflows of resources related to OPEB as of December 31, 2019 will be recognized in OPEB expense as follows:

Year Ended December 30	
2020	\$(26,886)
2021	(26,886)
2022	(26,887)
2023	(33,254)
2024	-
Thereafter	-

Funding Policy

The District's funding policy affects the calculation of liabilities by impacting the discount rate that is used to develop the plan liability and expense. "Prefunding" is the term used when an agency consistently contributes an amount based on an actuarially determined contribution (ADC) each year. GASB 75 allows prefunded plans to use a discount rate that reflects the expected earnings on trust assets. Pay-as-you-go, or "PAYGO", is the term used when an agency only contributes the required retiree benefits when due. When an agency finances retiree benefits on a pay-as-you-go basis, GASB 75 requires the use of a discount rate equal to a 20-year high grade municipal bond rate.

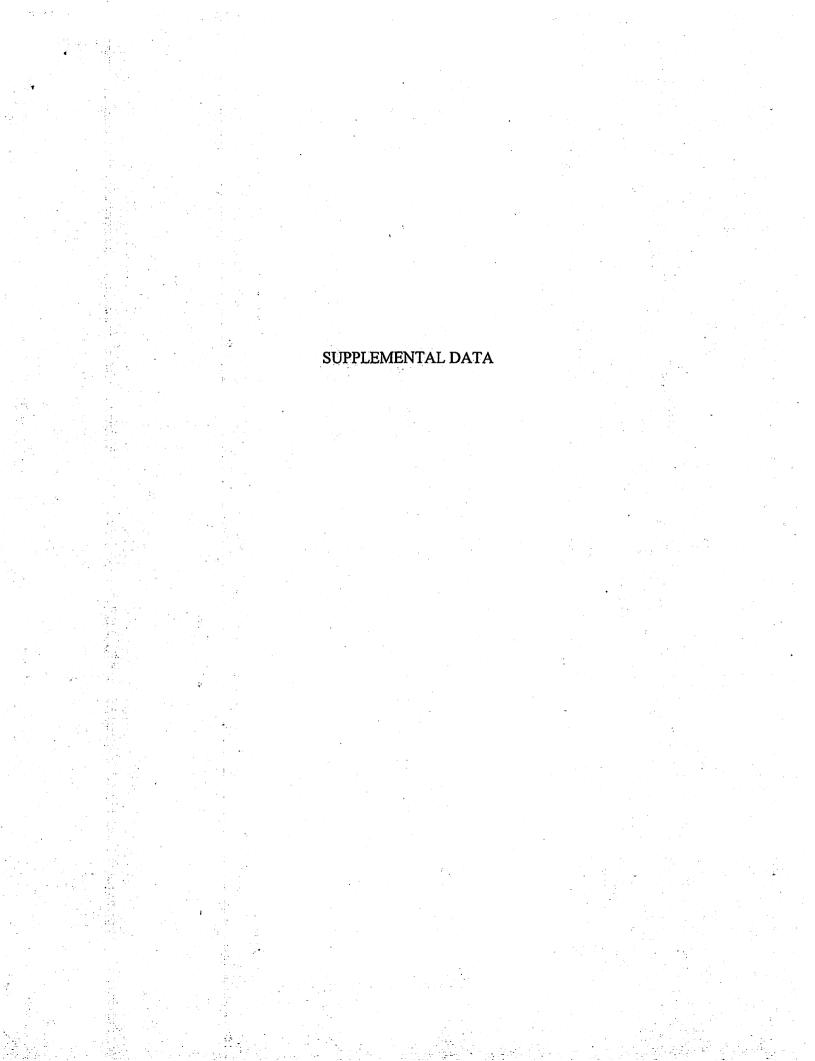

The District has been and continues to prefund its OPEB liability, contributing 100% or more of the Actuarially Determined Contributions each year. The discount rate was developed consistent with the expected rates of return published by CERBT for its assets allocation Strategy 1 investments, reflecting the projected benefit cash flows under the District's retiree health program. With the District's approval, the discount rate used in this valuation is 7.05%, the expected return on OPEB trust assets.

10. Subsequent Events:

Management has evaluated subsequent events through August 4, 2020, the date these December 31, 2019 financial statements were available to be issued.

11. Consolidation:

In 2016, the District, along with The West Side Irrigation District (WSID), adopted a concurrent resolution to consolidate the districts. In December 2016, the Districts entered into an agreement to provide administrative and operational support to WSID. In 2019, San Joaquin LAFCO approved a Municipal Service Review and approved the Sphere of Influence of both districts. On June 11, 2020, San Joaquin LAFCO approved the consolidation pending the outcome of a Protest Hearing scheduled for August 4, 2020. It is anticipated the consolidation will be complete on or about September 15, 2020.
